SUPPLEMENT THE RATION

HEIFERS	DRY COW	LACTATION	TURN OUT ON GRASS	MILKING ROBOT	WELL BALANCED	COMPLEMENTARY FEED	
 <p>PHYSIOlick INITIA</p> <p>Contribute to animal growth</p> <p>Support bones growth, hair and skin integrity</p> 	 <p>PHYSIOlick DRY</p> <p>Ensure an easier calving</p> <p>Contribute to the vitality of the newborn animal</p> <p>Prepare the future production cycle.</p> 	 <p>PHYSIOlick TRAIL</p> <p>Formulated to support the whole lactation period</p> <p>Contribute to meet the dietary requirement of animals</p> <p>Support feed efficiency</p> 	 <p>PHYSIOlick TRANSIT</p> <p>Help decrease Grass Tetany risk</p> <p>Help with digestive transit</p> <p>Limit protein degradation and ammoniac production in the rumen</p> 	 <p>PHYSIOlick ROBOT</p> <p>Control the ruminal pH and help with fibres degradation</p> <p>Support milk production and strengthen hoofs, hair and skin</p> <p>Help to prevent nervous trouble in sub-acidosis situation</p> 	 <p>PHYSIOlick EQUILIBRIUM</p> <p>Contribute to meet the dietary requirements of the animals</p> <p>Support feed efficiency</p> <p>Well balanced formulation to support all species during all production periods.</p> 	 <p>PHYSIOlick FEED PROTEIN</p> <p>Complement all kind of forage</p> <p>Better rumen working</p> <p>Enhance microorganism activity and fiber digestion</p> 	 <p>PHYSIOlick FEED ENERGY</p> <p>Provide energy and protein without urea.</p> <p>High carbohydrates content to enhance microorganism activity and fiber digestion.</p> <p>Complement all kind of forages</p> 

SUCKLING production

SUPPLEMENT THE RATION

COMPLEMENTARY FEED

PHYSIOLick
NURSY

Support natural defences of animals
Strengthen the leg's foundations and bones growth.
Improve skin and hair quality

PHYSIOLick
BOOST

Copper free to avoid issues with ovine
High concentrations of trace elements & vitamins
Formulated to support all species during all production periods.

PHYSIOLick
EQUILIBRIUM

Contribute to meet the dietary requirements of the animals
Support feed efficiency
Well balanced formulation to support all species during all production periods.

PHYSIOLick
FEED PROTEIN

Complement all kind of forage
Better rumen working
Enhance microorganism activity and fiber digestion

PHYSIOLick
FEED ENERGY

Provide energy and protein **without urea**
High carbohydrates content to enhance microorganism activity and fiber digestion.
Complement all kind of forages

AN ANSWER TO A SPECIFIC OBJECTIVE

DIGESTIVE TRACT

SKIN INTEGRITY

PULMONARY PROTECTION

REPULSE INSECTS

RUMEN PROTECTION

WALK

FATTENING production

SUPPLEMENT THE RATION

PHYSIOlick GROW

Help to prevent nervous troubles caused by intensive fattening diet

Support liver during intensive fattening period

Improve animal growth

PHYSIOlick EQUILIBRIUM

Contribute to meet the dietary requirements of the animals

Support feed efficiency

Well balanced formulation to support all species during all production periods.

PHYSIOlick FEED PROTEIN

Complement all kind of forage

Better rumen working

Enhance microorganism activity and fiber digestion

PHYSIOlick FEED ENERGY

Provide energy and protein without urea.

High carbohydrates content to enhance microorganism activity and fiber digestion.

Complement all kind of forages.

AN ANSWER TO A SPECIFIC OBJECTIVE

PHYSIOlick WALK

An answer to SPECIFIC OBJECTIVE

DIGESTIVE TRACT	SKIN INTEGRITY	PULMONARY PROTECTION	HOOVES INTEGRITY	RUMEN PROTECTION	REPULSE INSECTS
-----------------	----------------	----------------------	------------------	------------------	-----------------

PHYSIOLick
PHYTO

Contain 10 essential oils to protect digestive tract

Can be used for organic farming (according to the EU regulations)

PHYSIOLick
SKIN

Contains plant extract and a high quantity of highly digestible zinc which help to a better hair and skin integrity

PHYSIOLick
ZEN

Ensure sensitive phase of growth

Help to prevent pulmonary troubles

Strengthen natural defenses of the animals

PHYSIOLick
WALK

Help to a better hooves integrity and horn quality

Strengthen the leg's foundations and bones growth

Help to prevent deficiency and nervous trouble in sub-acidosis situation

Support milk production of dairy animal

PHYSIOLick
RUMEN

Help to control the ruminal pH and help fibers degradation

Help to reduce lactic acid concentration in the rumen (pH effect) and limit the methane production

Help to prevent nervous trouble in sub-acidosis situation

PHYSIOLick
PEACE

Contain garlic extract which makes the sweat to repulse the insects
